††The Alcon Prepaid Mastercard* is issued by Peoples Trust Company under licence from Mastercard International. Cards will not have cash access and can be used everywhere Mastercard is accepted.

TERMS & CONDITIONS: Visit AlconRewards.ca for program details. The Alcon Rewards Program runs from January 1, 2020 – June 30, 2020. Offer is limited to one offer per person, per promotional period. Offer is void if not received within 30 days of offer expiration. Offer valid at participating eye care professionals in Canada. Costco or internet purchases are not eligible for this reward offer. Offer valid for Canadian residents only. Offer not valid where prohibited by law. Once validated as Compliant, the reward value will be applied to an Alcon Prepaid Mastercard* card, as listed on AlconRewards.ca. Each time the reward card is used, the amount of the transaction will be deducted from the amount of your available balance. The Alcon Prepaid Mastercard* card expires 12 months after issuance. Please treat your card as carefully as you would cash and use your card promptly. Allow 8-10 weeks for delivery of reward. Reward must be accepted as received and cannot be exchanged.

The Alcon Prepaid Mastercard* is issued by Peoples Trust Company under licence from Mastercard International. Cards will not have cash access and can be used everywhere Mastercard is accepted.

YOUR PRIVACY: By submitting the claim, you consent to the use by Alcon Canada Inc. of the personal information that you have provided in this form for the purpose of a) sending you your reward card, b) sending you a reminder to purchase your next year supply if you have selected this option, and c) evaluating and developing our reward loyalty programs. We may transfer your personal information to third party service providers who assist us in administering this program. We use contractual or other means to require such third party to protect your personal information and not use or disclose it for any purpose other than directed by us.

High oxygen transmissible lenses. AIR OPTIX® plus HydraGlyde (lotrafilcon B), AIR OPTIX® AQUA Multifocal (lotrafilcon B) and AIR OPTIX® COLORS (lotrafilcon B) contact lenses: Dk/t = 138 @ -3.00D. AIR OPTIX® NIGHT & DAY® AQUA (lotrafilcon A) contact lenses: Dk/t = 175 @ -3.00D. AIR OPTIX® for Astigmatism (lotrafilcon B) contact lenses: Dk/t = 108 @ -3.00D -1.25 x 180. Other factors may impact eye health.

Important information for AIR OPTIX® plus HydraGlyde (lotrafilcon B) contact lenses, AIR OPTIX® for Astigmatism (lotrafilcon B) contact lenses, AIR OPTIX® AQUA Multifocal (lotrafilcon B) contact lenses: For daily wear or extended wear up to 6 nights for near/far-sightedness, astigmatism and/or presbyopia. Risk of serious eye problems (i.e., corneal ulcer) is greater for extended wear. In rare cases, loss of vision may result. Side effects like discomfort, mild burning or stinging may occur.

Important information for AIR OPTIX® NIGHT & DAY® AQUA (lotrafilcon A) contact Lenses: Indicated for vision correction for daily wear (worn only while awake) or extended wear (worn while awake and asleep) for up to 30 nights. Relevant Warnings: a corneal ulcer may develop rapidly and cause eye pain, redness or blurry vision as it progresses. If left untreated, a scar, and in rare cases loss of vision, may result. The risk of serious problems is greater for extended wear vs. daily wear and smoking increases this risk. A one-year post-market study found 0.18% (18 out of 10,000) of wearers developed a severe corneal infection, with 0.04% (4 out of 10,000) of wearers experiencing a permanent reduction in vision by two or more rows of letters on an eye chart. Relevant Precautions: not everyone can wear for 30 nights. Approximately 80% of wearers can wear the lenses for extended wear. About two-thirds of wearers achieve the full 30 nights' continuous wear. Side Effects: in clinical trials, approximately 3-5% of wearers experience at least one episode of infiltrative keratitis, a localized inflammation of the cornea which may be accompanied by mild to severe pain and may require the use of antibiotic eye drops for up to one week. Other less serious side effects were conjunctivitis, lid irritation or lens discomfort including dryness, mild burning or stinging. Contraindications: contact lenses should not be worn if you have: eye infection or inflammation (redness and/or swelling); eye disease, injury or dryness that interferes with contact lens wear; systemic disease that may be affected by or impact lens wear; certain allergic conditions or using certain medications (ex. some eye medications).

Important information for AIR OPTIX® COLORS (lotrafilcon B) contact lenses: For daily wear only for near/far-sightedness. Contact lenses, even if worn for cosmetic reasons, are prescription medical devices that must only be worn under the prescription, direction and supervision of an eye care professional. Serious eye health problems may occur as a result of sharing contact lenses. Although rare, serious eye problems can develop while wearing contact lenses. Side effects like discomfort, mild burning or stinging may occur. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye doctor.

CONTACT LENSES: Ask your Eye Care Professional for complete wear, care, and safety information. **CONTACT LENS CARE:** Always read and follow the label.

Always read and follow the label prior to use.
